NABET-CWA LOCAL TRAINING

The NABET-CWA Local 11 Training Committee was established in 1999 to secure funds for comprehensive training to enhance our members' skills on NABET productions.

With funding from various sources, NABET Local 11 has provided training on high-end production video cameras, non-linear editing, drones and fiber-optics. Free subscriptions for editing software were also available.

Local 11 is seeking additional funding for more training and will notify the general membership when new opportunities are available.

Thank you.

Fraternally,

Thomas Cooke,
NABET-CWA Local 11 Secretary
NABET-CWA Local 11 Training Committee Chair
